A-Rated Windows & Doors
Internal & External Insulation

Welcome

Harvest Energy Group consists of Harvest Energy & Harvest Construction. Harvest Energy specialises in windows, doors, porches & sunrooms. Harvest Construction specialises in all aspects of construction from small home extensions to complete new home builds. The 25 year old company is a family run business, boasting a massive 10,000sqft manufacturing facility located in Baldungan, Skerries.

The main objective for our company is to provide the Dublin region with high quality workmanship in all aspects of construction. We manufacture our own A rated energy efficient windows and doors at affordable prices.

We also offer a wide range of kitchen options as well as being able to produce bespoke furniture and fitted wardrobes. We cater to both domestic and commercial markets, providing turnkey solutions to suit a wide range of building requirements and budgets.

With over 25 years of building experience, Harvest Energy Group have worked on everything from small projects to new builds. With such a wide range of services and products, a client can avoid the struggle of organizing multiple contractors and tradesmen, as we cover everything from the foundations to the final painting.

Construction & New Builds

New Build

Dormer bungalow

Project: Abbyfield Killester

Client: Kevin Hocter

Timeline: 12 Weeks

The client had an existing set of plans for a two bed dormer bungalow in Killester. The project involved a complete build, right through to the final finishes. This included all the ground works and site preparation.

Requirements

The project included building the structure, roofing, windows and doors, first fix for electrical/plumbing/joinery, plastering, second fix for electrical/plumbing/joinery, painting, flooring, final fix for electrical/plumbing/joinery and landscaping.

The finished project included two luxury ensuites and bathroom, fitted wardrobes, a shaker style kitchen and hardwood flooring throughout.

Testimonial

Jason and the guys at Harvest Construction provided a hassle free build, they handled everything. Jason was completely transparent and a pleasure to deal with, as were the rest of his team. The quality of work carried out by the guys was fantastic, quality finish throughout the house. I was more than happy with the attention to detail that all the Harvest Construction tradesmen had. Most importantly Jason and his team brought the project to completion on time and in budget.

Extension Project

Portrane

Client: Gordon O’Riordan

Timeline: 10 Weeks

The client had an existing set of plans that he had engaged with an independent architect to acquire. The project included clearing and prepping the site for a new extension to the rear of the property and housing a new open plan kitchen/dining area fitted with a bespoke kitchen.

Requirements

Bespoke kitchen designed and installed by Harvest Construction, all new flooring throughout the ground floor of the property. New internal doors, a new ensuite and utility room. Painting for the entire ground floor to include walls callings and wood work. 6kw stove to be supplied and fitted, the entire property was re-glazed in the latest line in the LUMI A rated window range, with a LUMI front door and a Lumi Bi-folding door to the rear of the property.

Testimonial

From the initial contact from the guys in Harvest Construction, right through to the end, the project was delivered on time and on budget. The project was managed by Colin Clare. Together Colin and the architect that I had decided to go with, exceeded all my expectations.

It is because of this I would have no hesitation in recommending Harvest Construction in the future and have already done so.

Extension Project

Clontarf

Client: Fiona Geoghegan

Timeline: 16 Weeks

This project involved bringing the clients concept through the design process, right through to the finishing touches. The project consisted of a new two story extension at the rear of the property, a new Kitchen, bathroom and new flooring throughout.

Requirements

Site preparation/clearance, demolition works, extensive internal renovations and a two story extension to the rear. Two story extension renovations included dining/living room, to include all flooring and painting, while the first floor was a new master room with ensuite to include all painting plumbing and flooring also. Internal renovation included ground floor bathroom, utility room, complete kitchen renovation, first floor bathroom renovations.

Testimonial

This was an extensive project for my husband and I to undertake, so we needed to find a contractor that could manage the entire project from start to finish. Colin came out and went through the whole project with us and there was nothing that fazed him or his team. They completed the project on time and on budget, while meeting the expected specification and even exceeding it in places. I would recommend Harvest Construction in a heart beat.

New Build

Portrane

Client: Claire & Barry Murphy **Timeline:** 20 Weeks

This project involved everything from the design process, right through to the finishing touches. The project consisted of a new two story three bed house with an ensuite for the master room. The open plan ground floor was fitted with a bespoke kitchen and new flooring throughout.

Requirements

This project included all the ground works and site preparation, building the structure, roofing, windows and doors, first fix for electrical/plumbing/joinery, plastering, second fix for electrical/plumbing/joinery, painting, flooring, and final fix for electrical/plumbing/joinery and cleaning /disposal of any debris.

Testimonial

As my husband and I are both professionals, we didn't have time to manage the project. Harvest Construction, Colin and Jason in particular, handled the project. We didn't have to worry about a single thing, the guys looked after everything and in less than 5 months we had our house.

We found the tradesmen to be very polite and hard working. The project finished up a bit early and came in under budget, I will be recommending Harvest Construction.

Extension

Swords

Client: Deirdre & Tony Egan **Timeline:** 8 Weeks

This single story extension to the rear of the property, which included an open plan Kitchen/dining area, really opened up the ground floor. Fitted with a bespoke kitchen, French doors and our signature A rated windows, the extension is spacious and bright.

Requirements

Single story extension to the rear of the property which included, open plan Kitchen/dining area, existing kitchen removed, new bespoke kitchen designed and installed by Harvest Construction in the new extended area.

We opened up the old area to join it to the new extension to provide a complete open plan for the kitchen/living and dining areas.

Testimonial

I am really pleased with the outcome. Everything looks perfect and it gives me the extra space I needed. The team were fantastic, they were always there on time and there was no cleaning up to do after them.

Their price was extremely competitive and the quality of work was exceptional, I will have no hesitation in using them in the future for smaller bits and pieces that I wish to get done. A 10 out of 10 from me.

Extension Project

Sutton

Client: Aoife Barry

Timeline: 12 Weeks

This project consisted of a single story extension at the rear of the property, bespoke kitchen and Parkgate flooring throughout. Both bathrooms were completely refitted and the whole property was glazed in our signature window and door range.

Requirements

Detached Dormer Bungalow to have a new single story extension to the rear to allow more space for the kitchen/dining room. A new television room also extended, all to be painted and new herring bone style Parkgate flooring throughout the ground floor. Works included a complete refurbishment of the ground and first floor bathrooms. Harvest Construction were delighted to provide their new signature Lumi range of A rated windows and doors for the re-glaze of the front of the property.

Testimonial

We recently had our house renovated which included an extension at the back of our house, we found Harvest Construction excellent to deal with, they were on hand the whole way through the renovations and they were hugely accommodating when changes were required.

They finished the job ahead of time and the results are fantastic, we are absolutely delighted with the finished product. I would have no hesitation in recommending them.

Extension Project

Rush

Timeline: 8 Weeks

Porch to the front and extension to the rear of the property to include a new kitchen and dining area, and a complete re-glaze of the property with A rated windows and doors. New electrics and plumbing for the extension area, plastering, flooring and painting across the entire ground floor.

Requirements

This included all the ground works and site preparation, building the new porch and extension to rear, roofing, windows and doors, first fix for electrical/joinery, plastering, second fix for electrical/joinery, painting, flooring, cleaning and disposal of any debris.

Testimonial

The lads at Harvest Construction completely refurbished my house. They renovated the kitchen, bathroom and bedrooms, I also got an extension built onto the back of the house. The quality of materials used and the skills from the workers made the whole project run smoothly. The lads were fantastic, they kept my house clean and tidy throughout the whole build, I highly recommend Harvest Construction to anyone looking for work to be done with a quality finish, 10/10.

Fit out

Fit Out

DP Gymnastics

Client: Marisa Duff

Timeline: 4 Weeks

The client had an empty industrial unit and wanted to turn it into a space where she could teach gymnastics. There was also a need to have a space for gym equipment and an office space for the administration end of things.

Requirements

This was an empty industrial unit, we started by putting in all the electrical points, new flooring throughout, gymnastics area to include a sprung floor and to be separated from the warmup and gym areas.

A new office area to be created and fitted out with, suspended ceilings, carpet tiles, ventilation and fire systems.

Testimonial

From start to finish there was no issues, Jason and his team came in and completed the project in no time at all. There was never any problem if things needed to be changed and overall the design input from Jason really made the best of the space that was there. The guys completed this project early and came in right on the quoted budget. I will definitely use them again in the future and would have no problem recommending Harvest Construction.

Office Fitout

Park West

Client: Silent Air **Timeline:** 14 Weeks (3 Phases)

The client wanted to redesign their existing office space to have both an open plan area and partitioned sections to accommodate closed office or meeting rooms. All new suspended ceilings fitted with new lighting and ventilation systems.

Requirements

Demolition of the existing offices within the first floor of the property, new installation of a framed partitioning system creating some closed office spaces, all new suspended ceilings, carpet tiles throughout the first floor, new canteen area including all plumbing and electrical works needed. There was a new toilet/shower block created on the first floor also. Ground floor works included, new toilet/shower block, new store rooms and refurbishment of the existing reception area.

Testimonial

We are very happy with the service provided by the Harvest Construction team. They have a very pro/can-do attitude. Some of the work was carried out outside office hours, this was done to accommodate the day to day running of our business. There was no disruption to the business operations as a result of the flexibility of the Harvest Construction team. Once finished, they left the place clean and tidy, with the work being of a very high standard. We would definitely recommend Harvest Construction in the future.

Restoration

Saphires Restaurant

Client: Jimmy Johnson **Timeline:** 14 Weeks

Our project brief was to convert a traditional public house to a stylish bar and 40 seater Oriental restaurant. This included a new kitchen extension and full kitchen and dining room fitout.

Requirements

This project consisted a complete renovation to turn the existing public house into a restaurant, this included all the electrical works and plumbing needed. There was an installation of a commercial kitchen and ventilation system. A fire system to include sprinklers and alarm boxes were installed, all new flooring, and painting. There was also a large amount of bespoke furniture built for the interior, including a complete new bar.

Testimonial

Jason from Harvest Construction completely refurbished and renovated my 40 seater restaurant. All works were carried out to a very high standard. Jason's input in to the design and decor was critical to the present success of the business. I was kept well informed of all works being carried out. I would highly recommend Harvest Construction and their tradesmen for any renovations that you may be planning. Super job thanks.

At Harvest Construction we do things a little differently, we feel it works as every project is different. Harvest Construction has the expertise, knowledge and attention to detail to provide start to finish solutions for all projects. We treat every project with the same attention to detail and apply the same meticulous planning irrespective of the project size. Our focus is on the needs of our clients, Harvest Construction have the expertise to provide solutions for a wide range projects. Everything from complete office Fit Out, new commercial/residential builds, extensions and renovations are carried out by dedicated and skilled professionals within their own field.

The Harvest Construction team has over 60 years of previous building experience ranging from large scale commercial projects to minor refurbishments. With such a wide range of experts and associates, a customer can avoid the struggle of organizing multiple contractors as we provide a turn key solution to suit projects of any size.

COMMERCIAL

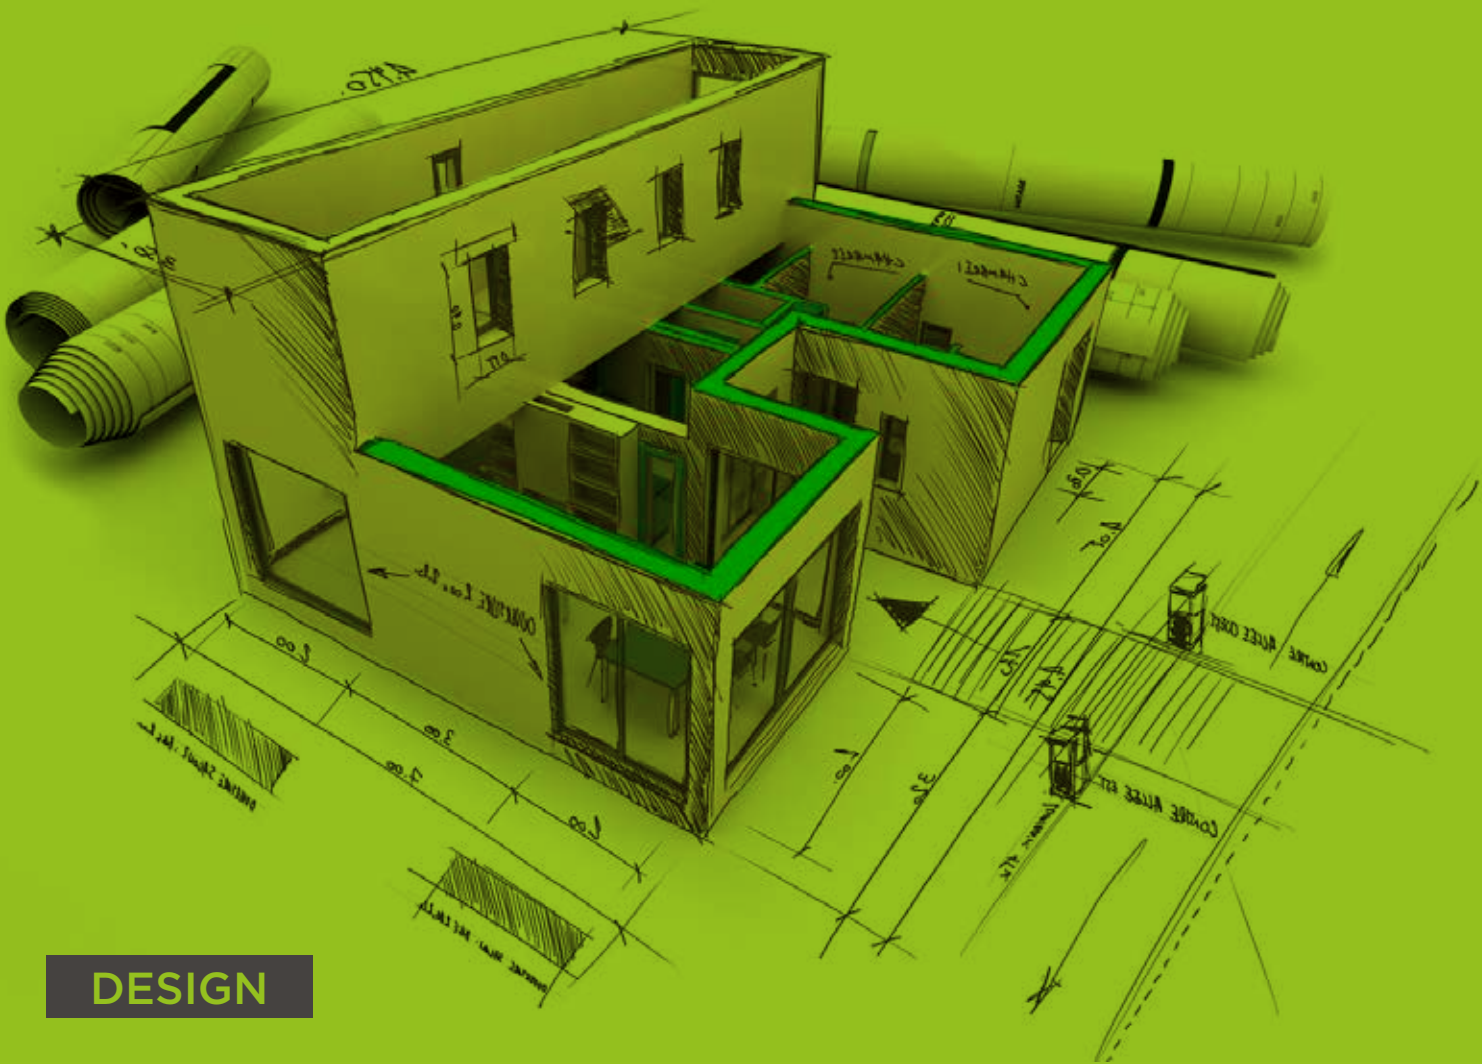

Harvest Construction is the new sister company to Harvest Energy, at Harvest Construction we can cater for every aspect of a commercial project. Starting with an initial concept and design of plans right through to the final furnishings. As our sister company boasts a massive 10,000 sq/ft manufacturing facility, we are able to produce very high quality bespoke glazed units, desks and other office furniture. The dedicated professionals at Harvest Construction can look after every aspect of a commercial project from the floor area certification to the compliance and fire certification, right through to the final installation of communications rooms.

RESIDENTIAL

The professionals at Harvest Construction have a vast amount of experience, ranging from design to finishing works such as decorating. This allows our team to cater for any project no matter what the scale, with a manufacturing facility of 10,000 sq/ft we can produce bespoke windows and doors. Harvest Construction is Unique to market as we are a turn key solution provider for a wide variety of projects. At our manufacturing facility we produce UPVC windows and French doors, A rated composite doors and one off glazed units.

DEVELOPMENT

While Harvest Construction is new, the team have a vast amount of experience in the development of projects. This includes all areas of construction and projects of various sizes. At Harvest Construction we feel that any development project can be run smoothly, while causing as little disruption and stress as possible for a client. This is done by removing the stress of project management. By employing professionals in all areas of the industry, Harvest Construction have gained a vast wealth of knowledge and professional experience.

DESIGN

PCA are a Dublin and London based structural and civil engineering consultancy who specialise in providing expert analysis and design for architectural practices and the construction industry. The practice was founded in 2004 by the Principal Paul Cuddy. We are one of the few small firms that have the capacity and expertise to deliver large scale projects. We have tailored our service to ensure optimum performance. Specialising in structural design and detailing, however we also like pushing the boundaries of conventional construction techniques and materials by using the most cutting edge design analysis software.

Porches

Porches

Sample work

Porches have many benefits from creating a new look to your home to increasing the security and adding protection from the elements. Front porch extensions act as an additional insulation to the front door. Whether you are looking for a simple glass porch to having a complete new build we can provide the porch that suits you. We offer unbeatable prices and a complimentary quote. We will come out to your house, measure it up, and talk you through the options available.

Testimonials

Porch Work

I am now feeling the real benefits of my door and windows, I first contacted Jason regarding a replacement of my front porch. Jason suggested that a Composite Door would serve me better. I was a little skeptical as I knew nothing about this type of door. However, I am more than delighted that I went with this option as it looks great and also made a huge difference in the heat retention of my home. I also decided to replace all of the windows at the back of my home as well as my kitchen door. The guys did the work in 2 days with little mess or disruption. They arrived on time and cleaned up before they left. Their cost was very competitive, I have since recommended Harvest Construction and their new customers are as pleased as I am. — Trish Quinn

It's very hard to find good, reliable, and professional contractors who will honor their word and not provide you shabby work/run off with your money. From start to finish Jason gave me peace of mind and he made sure the job was done in impeccable timing. These guys don't make excuses and they show up to work even in miserable conditions!. I can go on and on, I will ALWAYS recommend and refer anyone in need of a new porch, kitchen, bathroom, etc. to contact Harvest Construction. — Cormac Murphy

Harvest Construction are excellent! They did a wonderful job for us creating a new porch for us. Their designs and experience in this renovation niche very much impressed us and we are so glad we chose this company! They helped us select the best look and products for the porch, which are beautiful and will be easy to maintain. It fits our home as if it were part of the original structure. Jason and the crew did a fantastic job and we get compliments regularly from our neighbors. We highly recommend them!! — Sarah Miller

I highly recommend them. They gave me ideas for my porch that I hadn't even thought of and that the other company that I got a quote from didn't think of either. They listened to what I wanted and came up with a plan to get me the porch I wanted within my budget constraints. — Nuala Byrne

UPVC Window Designs

uPVC

Windows & Doors

Made using the very best materials, our highly attractive windows and doors come in a wide variety of designs to suit your home. We provide and install excellent quality uPVC windows throughout Ireland. All of our UPVC windows come with a high security frame with a multi-point locking system.

Our A rated windows will not only save you money on your heating bills, but will help you play your part in reducing carbon emissions.

Testimonials

Window Designs

Jason along with the Harvest Energy Team commenced work for us which included five replacement windows, replacing glass in two existing window frames and two bi-fold doors. The workmanship was excellent, the workmen were very obliging, cleaned up as they went along.

We were impressed by there own standards and came across as very professional in their duty. I would not hesitate in recommending this company and its work force, Price for the job was very competitive also. — Mick O'Neil

Harvest Energy replaced all our windows, hall door, back door and french doors at a really competitive price. From the initial consultation to installation and completion, Jason and his team were professional, helpful, friendly and efficient and we would have no hesitation in recommending them to others. We are delighted with the results of their work. 10/10 — Anne Marie Lawlor

I am quite happy with the work done and at a very competitive price. I would recommend Harvest Energy.ie — Tony Cutchy

Harvest Energy installed my windows and doors. The service provided was professional and well-organized. The work carried out was of the highest quality and standard. I would highly recommend Airtight Windows as they really look after their customer. — Alan May

External Doors

Harvest Energy Group are stockists and fitters of Apeer doors. Apeer external doors are 'secured by design'. Anti-bump, anti-drill, anti-pick and anti-snap Kitemarked cylinder lock barrels are fitted as standard to every Apeer door. They are also triple glazed with an anti-tamper glazing system

Steel Hinge Bolts

Multi-point locking system

AV2 Lock

Coupling Bar

Sidelights are coupled with aluminium bar for greater security, rigidity and stability.

Glazing Units

Apeer 70 doors have triple glazed units as standard

Apeer traditional glazing system

Matching timber-effect raised mouldings fitted to the inside of the door and covers our reinforced, fully insulated, toughened glazed units.

Yale Locking System

2 rollers, 3 hooks, 2 deadbolts and 1 latch, high security system protects your family from intruders.

Kitemark Cylinder

Anti-bump, anti-drill, anti-pick and anti-snap Kitemarked cylinder lock barrels are fitted as standard.

Hinges

Flag or butt hinges are fitted to Apeer70 doors to allow for adjustment.

Colour Matching

The manufacturing process allows the flexibility to colour match your complete door entrance system, inside and out. Colour choices are not restricted to white frames, or to a white only finish on the inside. Choose your door colour, match the door frames, rebate, weather deflector and internal finish.

The low-maintenance, highly robust colour finish is designed to stay looking good year after year, both inside and outside.
